Had it not been that the latter was pretty well balanced, and the servant a strong man, it would have come down with a crash that would have demolished things generally. Luck-ily Mr. Weatherbee was at hand, and a piece of copper wire was at name, and a piece of copper wire was quickly twisted and substituted for the rope, which was taken out and subjected to a close exami-nation, which revealed the remarkable fact that it had been gnawed in two by moths. This caused Mr. Weatherbee to examine the cordage and ropes sustaining the balance of the mirrors and pictures in his establishment, and

scrutiny was repaid by finding that every "cord and tassel" and piece of every "cord and tassel" and piece of manilla was more or less gnawed—some of them almost entirely in two. The falling of a valuable picture some days ago, and which at the time was regarded as a very remarkable and mysterious affair, is thus explained. The PHLES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and lither most difficult of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, yet realize no permanent advantage therefron. They have been told professionally, perhaps, there was "no permanent cure for Piles," and consequently have despaired of may future cessation from pain and suffering.

Nearly three hundred thousand dollars in Nearly three hundred thousand dollars in money and work has already been subscribed to the capital stock of the Company. The Louisiana Legislature has passed a bill subscribing one hundred thousand ideaers of stock to the Company. An additional sum of that amount will, without a doubt, be smiscribed by the same body. The Company have resolved to take lands for stock, and this is the feature to which they desire to call the attention of owners of real estate. In the Southern States, on account of the disorganized condition of labor, lands are an incumbrance. Vast tracts that yield no revenue to the proprietors, pay exorbitiant taxes, and the proprietors, pay exorbitant taxes, and thus cripple their only productive resources. This Company propose to take these lands at a fair valuation and issue to the owners their a fair valuation and issue to the owners their stock in lieu. If lands shall enhance in value, so will the stock enhance in value, and thus the land proprietor carry in his pocket the equivalent of his lands, to be converted into money or property without delay. The success of this great enterprise is beyond question. The stockholder, in addition to the benefit of the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their earnings.

will be part owner of a line of boats, and be entitled to dividends in their earnings.

Persons wishing to exchange lands for the stock of the Company will send to the Agent at Memphis a description of them, their productive qualities, the timber, bottom or upland; whether overflowed or not; if overflowed, what proportion; how near to county-town, to railroad, depot, river; and all facts necessary to afford the Company a satisfactory idea of the land. This may be done by certificates of reliable, disiniterested persons residing in the neighborhood. The present actual value of the land may be proved in the same manner. The purity offering lands must state in his proposition the lowest figures he will take. The Company will not give exorbitant prices. The titles must be uncanambered by ladgments, mortgages, deeds of trust, tax titles, or otherwise. This may be shown by official certificates of judges, cierks, sheriffs, or the opinions of respectable autorneys. This is believed to be the best opportunity to dispose of surplus lands in the South and West are warmly embarked in the cuterprise. The femeral flaadquarters of the South and West are warmly embarked in the enterprise. The femeral flaadquarters of the Company are in New Oricans, but agencies exist in all the principal cities.
